FOR WOMEN, SATARA**

**[Faculty: B.C.A., B.A. & B.Com.]
Affiliated to SNDTWU, Mumbai**

Criterion 2 – Teaching –Learning & Evaluation

**2.6.1 Teachers & Students are aware of the stated Programme
& course outcomes of the Programmes offered by the
Institution. (15)**

Course outcomes

- BCA
- BA (English)
- BA(Economics)
- B.Com(Compulsory)
- B.Com(Vocational)

Bachelor of Computer Applications

Course Outcomes(Semester -1)

Semester	Course Code	Course Name	Course Outcomes
I	1101	BUSINESS AND TECHNICAL COMMUNICATION SKILLS	<p>1. Enable the students' ability to write error free while making an optimum use of correct Business Vocabulary & Grammar.</p> <p>2. Will enable the students to distinguish among various levels of organizational communication and communication barriers while developing an</p> <p>3. They will be able to draft effective business correspondence with brevity and clarity.</p>
	1102	PROBLEM SOLVING USING C	<p>1. To develop logic which will help them to create</p> <p>2. Demonstrate an understanding of computer</p> <p>3. Design and develop computer programs, analyze, and interpret the concept of pointers, declarations,</p>
	1103	WEB PROGRAMMING	<p>1. To design web pages using HTML5 language, applying stylish information to web pages using CSS.</p> <p>2. To develop interactive web pages using JavaScript.</p> <p>3. To develop dynamic pages on the web server using PHP language and implement Database Driven Websites</p>
	1104	COMPUTER FUNDAMENTALS AND OPERATING SYSTEM	<p>1. Learners will be able to describe basic concepts, mechanisms used by operating systems.</p> <p>2. Learners will be able to compare process scheduling algorithms, apply synchronization primitives and evaluate deadlock conditions and to analyze virtual memory management algorithms.</p>
	1201	OFFICE AUTOMATION TOOLS	<p>1. On completion, the students would be able to make word documents, spreadsheets, power point presentations using the Microsoft suite of office tools.</p>
	1201	PROBLEM SOLVING USING C LAB	<p>1. Read, understand and trace the execution of programs written in C language.</p> <p>2. Write the C code for a given algorithm.</p> <p>3. Implement Programs with pointers and arrays, perform pointer arithmetic, and use the preprocessor.</p>
	1202	WEB PROGRAMMING LAB	<p>1. To design web pages using HTML5 language, applying stylish information to web pages using CSS. .</p> <p>2. To develop interactive web pages using JavaScript</p> <p>3. To develop dynamic pages on the web server using PHP language and implement Database Driven Websites.</p>

Semester II

Semester	Course Code	Course Name	Course Outcome
II	2101	ENVIRONMENTAL SCIENCE AND RTI	1. Appreciate concepts and methods from ecological and physical sciences and their application in environmental problem solving. 2. Appreciate the ethical, cross-cultural, and historical context of environmental issues and the links between human and natural systems. 3. Reflect critically about their roles and identities as citizens, consumers and environmental actors in a complex, interconnected world.
	2102	PROGRAMMING METHODOLOGY AND C++	1..Describe the object-oriented programming approach in connection with C++. 2. Apply the concepts of object oriented programming 3. Analyze a problem and construct a C++ program that solves it
	2103	DATABASE MANAGEMENT SYSTEM	1. Able to find and understand the Concept Of database approach. 2. Able to find and understand database architecture and data modeling, data Normalization. 3. Design and draw ER and EER diagram for real life problem.
	2104	MATHEMATICS I	1. Have a better understanding of sets, relations and functions. 2. Be able to understand Permutation and Combinations, 3. Apply logic and construct simple mathematical proofs and solve problems.
	2105	PRINCIPLES & PRACTICES OF ACCOUNTS	1. Students will be able to learn fundamental accounting concepts, Conventions & terminologies. 2. Students will be able to describe the importance, functions & objectives of books of entry, subsidiary books, bank reconciliation statement and Final accounts. 3. Students will be able to prepare books of entry, subsidiary books, bank reconciliation statement and Final accounts using double entry book keeping.
	2201	PROGRAMMING METHODOLOGY AND C++ LAB	1. Create simple programs using classes and objects in C++. 2. Implement Object Oriented Programming Concepts in C++. 3. Develop applications using stream I/O and file I/O.
	2202	DATABASE MANAGEMENT SYSTEM LAB	1. Design and implement a database schema for a given problem-domain 2. Populate and query a database using SQL DML/DDDL commands. 3. Programming PL/SQL including stored procedures, stored functions, cursors, packages.

Semester III

Semester	Course Code	Course Name	Course Outcomes
III	3101	INTRODUCTION TO MICROPROCESSOR	1. To study fundamentals of microprocessor using different types of instructions, modes and interrupts. 2. Develop assembly language programing techniques using instructions in 8085.
	3102	NUMERICAL METHODS AND ALGORITHMS	1. To study about numerical solutions of non-linear equations in a single variable. 2. To get the knowledge about the calculation and interpretation of errors in numerical method. 3. To study how to use the application of Numerical Methods in Computer Science.
	3103	COMPUTER ORGANISATION AND ARCHITECTURE-	1. To introduce the principles of computer organization and basic architecture concepts. 2. Ability to understand the concept of cache mapping techniques. 3. Ability to understand the concept of I/O organization.
	3104	FILE STRUCTURE AND DATABASE MANAGEMENT SYSTEM	To understand use & implementation of DBMS features like data availability, data integrity, data security, & data independence.
	3201	MICROPROCESSORS LAB	1. To get the knowldge how to read, understand and trace the execution of the program. 2. To study how to write program code for the given problem.
	3202	DATABASE MANAGEMENT SYSTEM LAB-3	1. To make students familiar with creation and manipulations of databases. 2. Ability to understand implementation of DBMS concepts practically.

Semester IV

Semester	Course Code	Course Name	Course Outcomes
IV	4102	INFORMATION SYSTEMS ANALYSIS AND DESIGN-	1. To make students familiar with the theory of 'Information Systems Analysis'. 2. To give experience of system requirements and design specifications. 3. To give knowledge of physical implementations of system and other technologies relevant to system
	4103	INTRODUCTION TO SOFTWARE ENGINEERING-	1. Basic principles in Software Engineering. This includes knowledge of the following topics: 2. A thorough grounding and practical experience in the use of state-of-the-art techniques for developing software-based systems, including requirement analysis, design, implementation, test and maintenance, with an emphasis on software quality 3. An understanding of the principles behind these techniques, so as to make sound judgments during systems and software design and development
	4104	OBJECT ORIENTED PROGRAMMING C++	1. To study features of OOP using C++ programming. 2. To study how to develop software using C++.
	4201	DATA STRUCTURE LAB	1. To study how to solve linked list problems using pointers 2. To study how to build real time applications of linked list. 3. To get practical knowledge on the applications of data structures
	4202	OBJECT ORIENTED PROGRAMMING C++ LAB	1. To study how to write program code in C++ and to solve real world problem. 2. To study how to debug the program. 3. Skill to read, understand and trace the execution of the program
	4101	DATA STRUCTURE AND FILE ORGANISATION-	1. To study how to use the applications of data structure.. 2. To study how to solve problem involving graphs, trees and heaps 3. To understand how to solve problems like sorting, searching, insertion and deletion of data elements

Semester V

Semester	Course Code	Course Name	Course Outcomes
V	5101	DATA COMMUNICATION AND NETWORKING	<ol style="list-style-type: none"> 1. To understand the fundamentals of communication system and computer networking. 2. To understand different type of devices, topologies, layers and reference models.
	5102	JAVA PROGRAMMING	<ol style="list-style-type: none"> 1. Understanding basic object oriented programming concepts 2. Understanding Java Environment ,basic and advanced features in Java 3. Understanding Exception Handling, Multithreading, Networking, I/O etc
	5103	VISUAL AND DATABASE PROGRAMMING-	<ol style="list-style-type: none"> 1. To create a wide range of applications & components. 2. To learn oop language through which meet increasing needs of web services & web developments.
	5104	INTERNET PROGRAMMING-	<ol style="list-style-type: none"> 1. Understand the principles of creating an effective web page, including an in-depth consideration of information architecture.
	5201	JAVA PROGRAMMING LAB	<ol style="list-style-type: none"> 1. Write Java programs using basic syntaxes of control strings and function for developing skills of logic building 2. Write Java programs using classes, objects, members of a class and the relationships among them needed for a finding the solution to specific problem 3. Write Java programs to achieve reusability using inheritance, interfaces and packages
	5202	INTERNET PROGRAMMING LAB-	<ol style="list-style-type: none"> 1. Basic understanding of how to build a small web project using HTML, CSS and Javascript. understand basic concepts in HTML create basic web pages insert and format text implement a variety of hyperlinks to connect pages structure content on web pages apply CSS styles to some page elements insert and control images on a web page create, modify and format a basic layout.

Semester VI

Semester	Course Code	Course Name	Course Outcomes
VI	6101	Management Information System	1. Understand the leadership role of Management Information Systems in achieving business competitive advantage through informed decision making. 2. Analyze and synthesize business information and systems to facilitate evaluation of strategic alternatives. 3. Effectively communicate strategic alternatives to facilitate decision making.
	6102	Enterprise Resource Planning	1. To understand mechanism of planning in any enterprise using various concepts and theories of ERP. 2. To study guidelines, precautions, implementation methodologies and general model of ERP.
	6103	Intellectual Property Rights and Cyber Laws	1. To make familiar with various IPRs e.g. Patent, Copy right, Trademark, Design right etc. 2. To give the knowledge of Cybercrime and cyber Laws
	6104	6113: Web Technology	1. To design dynamic websites using HTML, ASP, Javascript, VBScript. 2. To write a server side java applications called JSP, Servlet. 3. To understand basics of other technologies like XML, XHTML, PERL etc.

**MAHARSHI KARVE STREE SHIKSHAN SAMSTHA'S
COLLEGE OF COMPUTER APPLICATION
FOR WOMEN, SATARA**

**[Faculty: B.C.A., B.A. & B.Com.]
Affiliated to SNDTWU, Mumbai**

Criterion 2 – Teaching –Learning & Evaluation

Course outcomes

BA (English)

Bachelor of Arts (English)

Course Outcomes

Semester - I

Semester	Course Code	Course Component	Course Name	Outcome
I	155101	Core Course - I (L.L.)	Starting With English	1.Start using language more accurately and fluently in the above mentioned spoken and written context successfully, transfer information from visual to verbal and verbal to visual 2.Understand the format of letter and e-mail writing use the tools of paragraphing and be able to compose simple e-mails and letters 3. Understand the systems of sound.
	130100	Foundation Course I	History as Heritage	1. To introduce students with our heritage. 2. To introduce students with our culture.
	130200	Foundation Course II	Women in Changing India	1.To introduce students to the discipline of women's studies and its specific purpose and perspectives studies 3. To look at the issues relating to implementation of legislation. contexts of women in India.
	145101	Disciplinary Component -I	Basic Concept of Genres of Literary study	1. To Comprehend the basic concepts of what constitutes literature and literariness. of writing. 3. Identify the forms and genres of literature especially with regard to prose writing.
	145201	Disciplinary Component -II	Exploring literary studies - Literary terms and critical approaches	1. To Enhance students' ability to truly appreciate and understand literature by being able to analyze and discuss it with proper critical vocabulary. 2. To have more concentrated ability to deepen their knowledge of techniques and forms. 3. To demonstrate familiarity too use the intellectual strategies that literary critics use to interpret and discuss literary works.
	175107	Ancilliary Component - I	Physical Geography	1. To introduce the students the basic concepts in physical Geography. 2. To understand concept of movement of the earth 3. To understand nature of theories in physical Geography

Semester II

Semester	Course Code	Course Component	Course Name	Course Outcome
II	255201	Core Course - I (L.L.)	Exploring English(CC-LL)	1. To use literary texts as a context for teaching language in use. 2. To students opportunities to listen and use language in context 3. To teach students to write longer descriptive and creative texts
	230300	Foundation Course - III	Personality Development	1.To orient the students about the concept & importance about personality development. and Leadership qualities presentation,listening&negotiation.
	230400	Foundation Course IV	Environment	1. To bring about an awareness of a variety of environmental concerns. 2. To create a pro-environmental attitude and abehavioal pattern which is based on creating sustainable lifestyles.
	245301	Disciplinary Component -III	Nineteenth Century Novel	1. Develop an understanding of how an author works to construct a particular narrative. 2. Enhance skills of analysis and argument as they probe into how cultural and historical context from the text.
	245401	Disciplinary Component -IV	Romantic and Victorian Poetry	dimesnsions of the poems 2. Resposms to specific and distinguishing features of the poem which give its uniqueness organized in a poem.
	275207	Ancilliary Component -I	Geomorphology	1. To introduce the students the basic concepts in Geomorphology. 2. To study the nature and technique of landform developments. 3. To understand various geomorphic process.

Semester III

Semester	Course Code	Course Component	Course Name	Outcome
III	355301	Core Course - I (L.L.)	Effective English	1. To read, comprehend and answer simple questions on texts and narratives. 2. To speak fluently in simple viz. to greet people, start or end a conversation in polite manner, to give direction etc. 3. To write informal letters, invitations, apologies, requests, intimations and appeals etc.
	330500	Foundation Course V	Current Concern	1. To sensitize the students to the emerging current social issues. 2. To provide a description and analysis of major social issues.
	345501	Disciplinary Component -V	Realism in Drama	1. To understand the elements and structure of realist drama 2. To be familiar with the terminology and concepts related to this genre.
	345601	Disciplinary Component -VI	20 TH Century poetry	1. Identify and describe distinct literary characteristics of modern poetry. 2. Analyze poetic works for their structure and meaning, using correct terminology. 3. Write analytically about modern poetry. 4. Effectively communicate ideas related to the poetic works during class and group activities.
	365101	Applied Component -I	Introduction to Children's Literature	1. To discuss major genres in and conventions of literature for children. 2. To develop critical skills for reading, thinking and writing about children's literature.
	375307	Ancillary Component -III	Introduction to Climate	1. To acquaint the students with basic knowledge of atmosphere, weather and climate. 2. To understand different characteristics and processes of atmosphere. 3. To know the fundamental concepts of insolation and heat budget.

Semester IV

Semester	Course Code	Course Component	Course Name	Course Outcome
IV	455401	Core Course - I (L.L.)	Communicative English	1. To read, understand and write responses in simple English. 2. Learn ways of regusing or rejecting in a polite manner with the help of suitable words 3. Learn to answer various types of questions like factual, interpretative and personal responses.
	430600	Foundation Course -VI	Current concern	perspective that will unable them to analyze future developments. problems. approaching, critiquing, responding to problems faced by contemporary societies.
	445701	Disciplinary Component- VII	The Early Modern Novel	1. To display a working knowledge of the cultural and historical contexts of the prescribed novels. 2. To identify and describe distinctive literary characteristics of the early modern novel. 3. Write analytically about the novels.
	445801	Disciplinary Component- VIII	Shakespearean Drama	1. to introduce studnets to Shakespeare's plays 2. To relate Shakespearean texts to their historical and cultural contexts.
	465201	Applied Component- II	Fable and detective fiction in Children's literature	1. To introduce fable and detective fiction as distinct popular form in Children's literature. 2.To introduce variety of Children's Literature from across the world.
	475407	Ancilliary component	Oceanography	1. To study the basic part of oceanography temperature of ocean water temperature and ocean currents

Semester- V

Semester	Course Code	Course Component	Course Name	Outcome
V	555501	Core Course - I (L.L.)	C.C. English	1. To read a wide variety of short texts for better comprehension 2. To develop listening and comprehension skills through audio discourses. 3. To articulate personal and formal responses in fluent English in a variety of situations.
	545901	Disciplinary Component -IX	Contemporaray Novel	1. Demonstrate an understanding of historical, social and political context of the novels being studied. 2. Identify and describe literary characteristics of the novel. 3. Analyze novels for their structure and meaning, using correct terminology.
	546001	Disciplinary Component -X	Contemporary Drama	1. To develop an understanding of the performative aspects of drama 2. To study and analyse the prescribed texts in their socio-cultural and literary.
	546101	Disciplinary Component -XI	Introducing Critical Writing	1. Develop the ability to read works of literary criticism and deploy ideas from these texts in their 2. Be familiar with different approaches that can be used to study literature
	546201	Disciplinary Component -XII	Indian literature in English Translation	1. Appreciate and evaluate bhasha literatures in translations. 2. To understand basic strategies employed in translation.
	565301	Applied Component -III	Women's Writing in the Twentieth Century	1. Appreciate and critically evaluate the distict nature and experience that women's writing articulates. 2. Be able to negotiate with some of the fundamental questions related to gender, class, race religion and community.

Semester VI

Semester	Course Code	Course Component	Course Name	Course Outcomes
VI	655601	Core Course - I (L.L.)	English for Success	1. To acquaint students with different narrative styles in English. 2. To enhance listening and comprehension skills of students in job interviews and group discussions. 3. To develop advanced speaking skills to use in work and social environments.
	646301	Disciplinary Component -XIII	Contemporary Poetry	1. To develop a deeper understanding of contemporary poetry in English 2. To map the historical and cultural context informing contemporary poetry 3. To study the major poets of contemporary times.
	646401	Disciplinary Component -XIV	Critical Theories	1. Be familiar with different approaches that can be used to study literature 2. Develop the ability to read works of critical theory, and deploy ideas from these texts in their own reading and writing.
	646501	Disciplinary Component -XV	Post-colonial studies	1. Demonstrate an understanding of the different intellectual and cultural contexts of post colonialism. 2. Demonstrate an understanding of basic ideas and concepts in postcolonial theory. 3. Critically analyze texts from a postcolonial perspective.
	646601)	Disciplinary Component -XVI	Diaspora Studies	1. Demonstrate and understanding of the different intellectual and cultural contexts of diaspora 2. Demonstrate an understanding of basic ideas and concepts in diaspora theory 3. Critically analyze diasporic texts from several perspectives.
	665401	Ancillary Component -IV	Life Writing	1..Demonstrate and understanding of the different intellectual and cultural contexts of Life Writing. 2. Critically analyze texts from different perspectives. 3. Effectively communicate ideas related to the paper during class and group activities.

	230300	Foundation Course - III	Personality Development	1.To orient the students about the concept & importance about personality development. 2.To sensitize the students on morals, ethics and Leadership qualities 3.To upgrade the students skills in presentation,listening&negotiation.
	230400	Foundation Course IV	Environment	1. To bring about an awareness of a variety of environmental concerns. a behavioral pattern which is based on creating sustainable lifestyles.
	245306	Disciplinary Component -III	Macro-Level Problems in the Economy of Maharashtra Since 1991	1. To enhance the knowledge of policies so solve the problem 2. To understand the social and economics problems before state economy
	245406	Disciplinary Component -IV	Basics of Money, Banking and Economics Development.	1. To make aware the students to the Economics Environment Prevailing in the Economics. 2. To Present a clear, accurate& interesting introduction to the Principles of modern.
	275207	Ancillary Component -II	Geomorphology	1. To introduce the students the basic concepts in Geomorphology. 2. To study the nature and technique of landform developments. 3. To understand various geomorphic process.

Semester III

Semester	Course Code	Course Component	Course Name	Course Outcomes
III	355301	Core Course - I (L.L.)	Effective English	1. To read, comprehend and answer simple questions on texts and narratives. 2. To speak fluently in simple viz. to greet people, start or end a conversation in polite manner, to give direction etc. 3. To write informal letters, invitations, apologies, requests, intimations and appeals etc.
	330500	Foundation Course V	Current Concern	1. To sensitize the students to the emerging current social issues. 2. To provide a description and analysis of major social issues.
	345506	Disciplinary Component -V	Sector Wise Features Of Indian Economy Since 1991	1. To Unable Students To Understand Various Sectoral Isses In Indian Economy. 2. To Make Them Unserstand The Growth And Progress In Indian Economy.
	345606	Disciplinary Component -VI	Theory of value	1. To make the students understand the micro concept of economics analysis. 2. To make them understand the behavior of an economic agent, namely a consumer and a producer. 3. To make the student aware about the process of determination of demand, production and different cost concept.
	365106	Applied Component - I	Entrepreneurship Development	1. To create global competence, training, skill development and motivation among young learners. 2) To prepare the background of students to be entrepreneurs in future
	375307	Ancilliary Component -III	Introduction to Climate	1. To acquaint the students with basic knowledge of atmosphere, weather and climate. 2. To understand different characteristics and processes of atmosphere. 3. To know the fundamental concepts of insolation and heat budget.

Semester -IV

Sem.	Course Code	Course Component	Course Name	Course Outcomes
IV	455401	Core Course - I (L.L.)	Communicative English	1. To read, understand and write responses in simple English. 2. Learn ways of regusing or rejecting in polite manner with the help of suitable words.
	430600	Foundation Course VI	Current social issues and problems	1. To provide students with the socio-economical perspective that will unable them to analyze future developments. 2. Empower students to deal with these issues and problems. 3. To acquaint students with a constructive way of approaching, critiquing, responding to problems faced by contemporary societies.
	445706	Disciplinary Component -I	Problems & Policy In Indian Economy Since 1991	1. To create an awareness & consciousness about the Economy in which students live. 2. To enhance the knowledge of Economic Problems in our Economy among the Students & to make them aware about the Policy framework to solve these Problems. 3. To reach the students to analyze the Policy implication & the Critical appraisal of the Policies.
	445806	Disciplinary Component -I	Distribution and Welfare Economics.	1. To generate a distinctly economical Perspective among the students. 2. To make the students understand the micro concept of economics analysis. 3. To make them understand the behavior of an economic agent, namely a factor of production.
	465206	Applied Component	Economics of Labour	1. To understand the functioning and dynamics of the markets for wage labour. 2. To make students aware about labour economics which looks at the suppliers of labour services, the demands of labour services and attempts to understand the resulting patterns of wages, employments and income.
	475407	Ancillary Component- VI	Oceanography	1. To study the basic part of oceanography 2. To get the information about salinity and temperature of ocean water 3. To study the relationship between the temperature and ocean currents

Semester V

Semester	Course Code	Course Component	Course Name	Course Outcomes
V	555501	Core Course - I (L.L.)	C.C. English	1. To read a wide variety of short texts for better comprehension 2. To develop listening and comprehension skills through audio discourses. 3. To articulate personal and formal responses in fluent English in a variety of situations.
	545906	Disciplinary Component -IX	Theory Of Employment	1. Acquire knowledge about Dynamics of Employment Market. 2. Think critically about Employment Policies at Macro level. 3. Enhance The Knowledge About Sectorial Profile In Employment.
	545006	Disciplinary Component -X	International Economics	social and political context of the novels being studied. the novel. using correct terminology.
	546106	Disciplinary Component -XI	Research Methodology in Economics	1. To develop the spirit of research among 2. To get proficiency in report writing. 3. Identify methods of sampling and data collection.
	546206	Disciplinary Component -XII	Banking and Financial Institutions	1. Explain Banking and Financial Scenario of India. 2. Gain basic knowledge of Financial Institutions & its Functions 3. Discuss dynamics of Indian money market and indian capital market.
	565306	Applied Component- III	Agricultural Economics	Economy. 2. Develop Policy Issues that are relevant to Indian Agriculture. 3. Explain the Problems of Agricultural Sector & Remedial Measures to resolve Them.

Semester VI

Semester	Course Code	Course Component	Course Name	Outcome
VI	655601	Core Course - I (L.L.)	English for Success	1. To acquaint students with different narrative styles in English. 2. To enhance listening and comprehension skills of students in job interviews and group discussions. 3. To develop advanced speaking skills to use in work and social environments.
	646306	Disciplinary Component -XIII	Business Cycles & Stabilization Policies	1. Understand The Basic Theoretical Framework Underlying The Field Of Macro- Economics. 2. Explain Knowledge Of Trade cycle, Development And Growth Model.
	646406	Disciplinary Component - XIV	Economics Of Development	1. Increase The Knowledge About Concepts Of Growth And Distinction Between. 2. Critically Analyze various Theories Of Development. 3. Discuss Policies to solve The Problems Underdevelopment.
	646506	Disciplinary Component -XV	Statistical Techniques	1. Know and apply the measures of dispersion in practice with their merits and demerits
	646606	Disciplinary Component - XVI	Public Finance	1. Understand Scenario of Public Finance in India. 2. Explain Center and state Financial relationship.
	665406	Applied Component	Industrial Economics	1. Develop knowledge about the principle of Internal 2. Understand the free flow of trade at the global level. 3. Take stand on impacts of term of trade on India trade.

Course outcomes

B.Com (Compulsory)

Bachelor of Commerce

Course Outcomes

Semester - I

Semester	Course Code	Course Name	Outcome
I	120101	English (L.L.)-I	1. Develop basic phonetic competence. 2. Learn situational communication in English. 3. Develop basic English writing skills.
	145105	Business Economics Paper I - Theory of Consumer Behaviour & Demand	1. To familiarise the students with Consumer Behaviour and Demand Analysis 2. To familiarise students with Forecasting of Demand and Elasticity of Demand
	145106	Commerce I - Principles of Management	1. To acquaint students with the managerial concepts, developments and functions
	145107	Accountancy I - Financial Accounting	1.Explain the general purposes & functions of accounting 2.Explain the differences between management &financial accounting 3.Describe the main element of financial accounting information
	145108	Business Mathematics Paper I	1. To familiarize the students with the basic mathematical tools. 2. To make students to get acquainted with applications of mathematical tools to business and commercial situation
	145109	Business Environment	1. To acquaint the students with the constituents of business environment. 2. To make the students understand the procedure for setting up a business unit. 3.To give students an overview of tourism industry and contemporary issues in tourism.

Semester II

Semester	Course	Course Name	Outcome
II	220201	English (L.L.) -II	1. Develop reading skills for comprehension. 2. Learn to take and make notes. 3. Learn the basics of business correspondence. 4. Learn to write letters of inquiry and letters placing order
	245205	Business Economics II - Theory of Production Cost & Competitive Markets	1. To understand concept of production function and its types 2. Various types of short and long run cost concepts
	245206	Commerce II- Human Resource Management	1. To acquaint students with the techniques and process to manage human resources in an organization
	245207	Accountancy II- Advanced Financial Accounting	1.Explain the general purposes & functions of accounting 2.Explain the differences between management 3.Describe the main element of financial accounting
	245208	Business Statistics	1. To make the students to get acquainted with the basic statistical analytical Skills. 2. To make students to get acquainted about Statistical tools and techniques to be used for managerial decisions.
	245209	Environmental studies	1. To acquaint the students about environment studies and population explosion. 2. To make students aware about different resources and their conservation. 3. To make students understand the concept of 4. To make students aware about different types of pollution and its prevention.

Semester - III

Semester	Course Code	Course Name	Outcome
