Kind Atten: Mrs.Asha Uthale

Sub: iSLIM Web-based Library Management system

I thank you for showing interest in our Web based library Management software iSLIM. With reference to our discussion, we are pleased to submit iSLIM quotation for your kind consideration.

About us

Algorithms is a software company working in the field of library automation for more than 25 years. Its flagship product "SLIM" – System for Library Information and Management - is leading library management software in India implemented at about 500+ libraries.

What is iSLIM?

We, at Algorithms, are committed to bring the advantages of the latest technology to our customers. As a part of this endeavor we have now released iSLIM library management software based on web platform. iSLIM offers remarkable features to cater to the requirements of managing libraries in the 21st century.

iSLIM includes all the features to automate library staff functionality related to Cataloguing, Circulation, Inventory, Reporting. For library members, iSLIM provides a portal to search in-house collection as well as external resources. Following services are offered with iSLIM:

1. Data conversion from existing system
2. Barcode labels format customization
3. Barcode labels Printing
4. Library ID card Format customization
5. Library ID card printing
6. Copy Cataloguing from Google Books

SLIM

iSLIM is backed by unflinching after sales support from Algorhythms Consultants Pvt. Ltd, an ISO 9000: 2008 certified company. Algorhythms' project execution and quality control procedures make every library automation project a total success.

iSLIM software is available in modules. Please refer the iSLIM brochure for list of modules. The attached quotation includes Basic Modules; you can select modules as per your requirement.

Standing behind our product!

Onsite Installation
Configuration setting
Implementation support
Data Conversion (charged extra)
Onsite Training / Remote training / Refresher courses
Support by Email, Chat, Phone
Visits by Support engineers
SLIM Users' Meet organized every year
SLIM User group formed for SLIM community

Thanking you,

For Algorhythms Consultants Pvt. Ltd,

Mrs. Kushal Gundecha

QUOTATION for iSLIM Software

Item Description: -

a) Supply of Library software iSLIM:-

	Module	Description	Price in Rs.
1	iSLIM system with following modules		1,29,500/-
	CAT	Cataloguing system	
	CIRC	Circulation system	
		Total	1,29,500/-
	GST 18 % Extra		

b) iSLIM Getting Started Manual - 1set

c) Five remote training sessions to your librariystaff

Payment Terms: -

100% with the purchase order

Warranty Period: - One year.

During the warranty period, the corrective maintenance of the software is covered.

Free Upgrades: -

You are entitled to any release of iSLIM upgrades during the warranty period.

Delivery of the Software: -

Installation of iSLIM will be made within 15 days of receipt of your order.

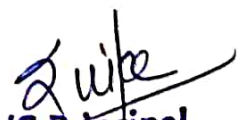

AMC: -

15% of the actual cost of software after warranty period.

This quotation is valid till 31st March 2021

iSLIM:

System for Library Information Management

The friendly software for information management in your library

A Trail blazer

iSLIM is a fully web-based library management software and the latest from the SLIM Library Management software family. SLIM is a trail blazer library management system since 1998.

Proven system

iSLIM is a proven system used by varied types of libraries such as: University libraries, Research institutes, Engineering firms, Financial institutions, Public libraries, Corporate libraries, Schools or Colleges, and Individuals' collections

Next Generation system

iSLIM brings the latest web technology to your library. *iSLIM* can be hosted on your library server to give you better control of your library data. If required, *iSLIM* can be hosted on the third party cloud service.

Versatile system

iSLIM helps you catalogue books, films, sound recordings, drawings, clippings, articles, reports, letters, pamphlets, serials publications etc. *iSLIM* cataloguing adheres to popular international standards. You can share data with others effectively. Retrieval of the data is simple, fast and efficient.

Highly configurable

iSLIM is a modular software. It is available in multiple modules. It can be configured for your specific requirements by choosing one or more of these modules.

Unflinching after Sales Support

iSLIM is backed by Algorhythms Consultants Pvt. Ltd. – a company which is in the field of library automation for 30+ years. There are 500+ libraries in India and abroad where SLIM software is successfully running because of the unflinching support from the ever ready SLIM support team.

Algorhythms Consultants Pvt. Ltd. Pune. India.

***ISLIM* is easy.**

Operating ISLIM is easy:

- On-line help / Manual
- Pick-up lists during data entry
- Validation checks
- Bar code support
- Minimal data entry
- Integrity checks

Communication with others is easy:

- Browsing your library information through the Internet/Intranet
- Multiple selection criteria for reports. Reports can be: – on screen/printer, in text, .PDF or html files
- Letters:
 - User defined texts
 - Editing of prepared letters
 - E-mailing letters

Migration to ISLIM is easy:

- Existing data conversion to ISLIM.
- Optional customized retrospective data entry.
- Optional customized data capture.
- Data captured in the export / import format similar to MARC / CCF, ISO 2709

ISLIM is powerful.

- Unicode means ISLIM can handle data in any script, Marathi, Telugu, Kannada, Gujarati, all Indian scripts.
- Multimedia Links. Covers Digital Library requirements.
- Variable length fields / records.
- Optimal use of disk storage.
- Packing/purging records.

ISLIM brings out benefits of Web technology

- Adherence to UI Standards with menu bar, taskbar, window resizing, window moving, multitasking using simultaneous operations in multiple browser tabs.
- Point and Click, reduces users learning curve
- Drag & Drop, Cut & Paste reduces data entry efforts and increases uniformity and accuracy of the data
- Online help / Tool Tips.
- Use of standard dialogues for saving, opening and searching
- Use of user specified fonts, colors and sizes, using CSS.
- Multi-media links to drawings, sounds, Scanned files, web sites etc.
- Interface with standard applications like MS-Word, Mail Exchangers, PDF etc.

Cataloguing

ISLIM Cataloguing is based on AACR2 (Anglo American Cataloguing Rules). You can catalogue any type of material: • Books • Articles • Slides • Maps • Audio / video • Films cassettes • Texts • Drawings • Clippings • Serial publications • Software • Standards and many more.

Descriptions of AACR2 areas / sub areas / other categories are available on-line. MARC fixed fields are provided. Data entry for a card is entirely menu driven. Rules of punctuation are programmed to give consistent and accurate cards. The cards are available in the standard 5" x 3" size. Analytical entries, 'See', 'See also' references and multiple catalogues are available. Unlimited number of added entries (access points) per card is allowed such as title, uniform title, main entry, multiple keywords, place of conference, etc. Any subject classification system such as UDC, DD, or CC etc. is permissible.

Other Features:

- Authority control on author / publisher name / keyword and more. • Accession details of items
- Cardex for bound volumes of journals • Micro-document cataloguing (article indexing)
- Bibliographic details of serials • Accession register • Catalogues and labels printing

Circulation

ISLIM Circulation system is based on lending rules that you can define and change. It covers:

- Member information • Registration card with member's photograph and barcode ID • User specified code of member ID • Subjects of interest for members (SDI) • Loans and reservations data retrieval by borrower identification • Inventory / circulation status • Physical stock verification
- Transaction logging • Binding (issues / receipts) • Shelf list • Tracking fines and fees due
- Calendar master maintains list of holidays • Rules based computation of fines for overdue items
- Deferred reservations to ensure availability of item on shelf at specified future date • Inter library loan monitoring system • Prioritized reservation queues

Front desk operations:

- Issues, returns, reissues
- Title or copy specific reservations/cancellations
- Bulk transactions for a borrower
- Backdated transactions

Issue / Return with Barcode:

- It provides an easier interface to the barcode system, offering basic transactions

like Issue and Return. You may also print transaction report for a borrower.

Letters Generation:

- Collect reserved item
- Overdue loans notice
- No dues certificate
- Membership renewal reminder
- Recall a book in circulation
- Self Check-in and Check-Out (optional feature)

(Faculty B.C.A., B.A., B.Com.)

Acquisition

ISLIM Acquisition system supports the entire range of activities from the time someone makes a proposal to acquire an item, until it is finally paid for and accessioned.

Acquisition system covers:

- Proposal for acquisition • Inquiry to book sellers/publishers • Purchase orders (foreign / local)
- Books on approval memos • Purchase bills • Payment details of purchase bills • Credit notes
- Detailed information about vendors • Multiple currencies and conversion rates

The data on documents is automatically picked up for generating letters. These can be simply printed, signed and posted. Associated payments information is maintained. Purchase follow-ups are made easy with: • Purchase order status report • Purchase order follow up letters • Payment advises • Entries in accession register are generated automatically.

The items under acquisition can be kept in the catalogue and can be made visible through OPAC searches. These items are grouped by proposers, subjects, recipients, etc. and can be retrieved in many ways: • Those on requests, orders, bills or approval memos • Those awaiting approval • Those received on donation or exchange basis

Serials Control

ISLIM serials control system helps achieve an effective utilization of periodicals budget. It allows for tracking receipts of issues, filing claims for issues not received, preparing binding orders, etc.

The Journal Title Information includes: Title, Abbreviation, ISSN and other identification numbers.

- Publisher / Agent • Periodicity • Delivery Mode • Gratis / Exchange / Depository • Multiple Addresses for Communications • Holding note for Union catalogue • Separate list of journals on proposals

Letters Generation:

- New subscription
- Renewal of subscription
- Reminders / replacements for issues
- Binding order
- Request / acknowledgment for gift / exchange
- Payment forwarding note

Additional facilities:

- Generation of arrival schedule for issues of journal
- Subscription history for journals
- Popularity statistics
- Accessioning of bound volumes
- Publication history
- Integrated with article Indexing

(Faculty B.C.A., B.A., B.Com.)

iOPAC

On-line Search Facilities for Readers

iSLIM OPAC (On-line Public Access Catalogue) offers powerful on-line search facilities to search through library catalogues: • Author • Keyword • Subject class • Title • Publisher • Place of publication • Main entry • Material type • Place of conference • Subject name • ISBN / ISSN • Year of conference • Series Titles • Serials Title • Year of publication

The repository of words, names, titles, keywords, etc. is available for on-line browsing while the search phrase is being entered. This displays alternate spellings; words derived from same root, etc. and thus help the searcher by providing a view of the data. In addition to these conventional searching methods, OPAC indexes every word in the description of the item. Thus, to

conduct a search one need not be aware of the cataloguing style of the library.

Optional formats are available to display information such as:

- Abstract of the item
- Keywords for the item
- Number of copies
- Bound volumes of a journal
- Loose issues of a journal
- Inventory status such as lost / missing / withdrawn

An interactive query builder with:

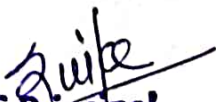

- Boolean operators such as and, or, not
 - Wild card matching
 - Proximity and adjacency operators
 - Set formation and combination operators
- A query result can be presented as a neatly formatted bibliography in multiple sorting orders.

List of iSLIM modules

Basic Modules	Enterprise Modules	L2L Add-on	Ancillary
Cataloguing	Web Based OPAC	Inter Library Loan (ILL)	SMS interface
Acquisition	Web Proposals	Export/Import in CCF/MARC/XML	Smart card/ RFID interface
Circulation	Selective Dissemination of Information (SDI)	DBbridge	Library Map
Serials Control	Bulletin Printing(CAS – Current Awareness Service)	Z39.50 server	Self Issue/ Return (SIP2)
OPAC (On-line Public Access Catalogue)	Usage Statistical Analysis (STATS)	Z39.50 client	News paper clippings and Monthly billing

Dear Madam,

Please find the information about iSLIM installation done at your end

WebServer: For iSLIM applications, Web server IIS (Comes with Operating system) with dot net framework 4.6.1 (Comes with Operating system and also freely available) is installed.

DB Server: For database, MS-SQL Server 2008 R2 or above is required; In your case we have installed **MS-SQL Server 2008 R2 Express** which is freely available

Note: IIS, IUSR security permissions given on all the applications and virtual directories created.

Barcode fonts, Crystal report (Freely available) installed on Web server only

In IIS 5 virtual directories created

1. **iSLIM:** Main application used by the SLIM operators (Library Staff).
3. **Jobs:** Service used by iSLIM for scheduling tasks which will be run periodically and to run certain tasks in the background.
4. **EMS:** Service used by iSLIM for sending transactions and other emails.
Emails will be sent from Web Server using the SMTP server details provided by you
Following SMTP server details will be required-
SMTP server address, SMTP port, SSL enabled?
and account details - **From email ID, Sender email ID, Password**
6. **BookCover:** This stores book covers and displays on the iOPAC.
7. **MediaLinks:** This stores Digital files or soft copies for which links are provided in iSLIM.
