

State Level Seminar

On Cyber Security

Organized by

MKSSS's

**Maharshi Karve Mahila
Mahavidyalay, Satara**

27th and 28th November, 2025

About the Trust

Maharshi Karve Stree Shikshan Samstha (MKSSS) was established in 1896 by Bharat Ratna Maharshi Dhondo Keshav Karve, to provide education to women and make them self-reliant. MKSSS aims at "Empowerment of Women through Education" as Maharshi Karve believed that "Women's Education and National Development are complementary to each other." Currently, MKSSS has campuses all over Maharashtra, where more than 32,000 girl students are taking education. Over the period of last 125+ years, the Institution has grown manifold and it is running 64 educational units at present. These units are located at Pune, Satara, Wai, Ratnagiri, Nagpur & Kamshet and are exclusively for girls.

About the College

The Maharshi Karve Mahila Mahavidyalay is established in academic year 2000-2001. The college is affiliated to S.N.D.T. Women's University, Mumbai. Within a short span the college has acquired reputation for quality education. The Institute is basically related and interested to offer Bachelor Degree in Computer Application, Arts, Commerce and Vocational. The college situated at heart of the Satara city. The college building has spacious classrooms, seminar hall, computer labs and library. The peaceful atmosphere of campus and wide range of activities complement student's academic life. Vision of the college is "To be renowned institute for imparting quality education for empowerment of women." The faculty and students of the college have contributed immensely in the field of academic, sports and cultural activities.

About the Seminar

The state level seminar is organized by Guest Lecture, Workshop and Seminar cell in collaboration with Internal Quality Assurance Cell. Cyber Security is the activity of utilizing a variety of technologies, procedures, and policies to safeguard individuals, systems, and data from cyber-attacks.

The broad objective of this seminar to teach individuals how to recognize threats like phishing, understand their role in protecting data, and comply with regulations. The seminar includes sessions, presentations by eminent resource persons as well as interactive sessions to resolve the queries of faculty members and students.

Outcomes of the Seminar

- Participants gain increased awareness of threats and risks,
- Attendees learn about common attack types, vulnerabilities, and the tools and techniques to protect against them.
- Participants gain improved knowledge of defence measures like firewalls and encryption
- strong passwords, two-step authentication, and antivirus software.

Certification

E-certificates will be issued to the participants of the seminar.
